Subject: Access to Resort Center Associates Property: SS-27

Hello Mr. McKinstry and Ms. Golder – According to the 10/31/14 access agreement between Resort Center Associates and United Park City Mines, you are the points of contact for the property SS-27, in Summit County, Utah. The agreement also grants EPA access to the property for purpose of conducting site activities. I write to provide required notice to you of EPA's intention to complete sampling activities. The purpose for this sampling effort is to understand natural background conditions near the Richardson Flat site, and part of that effort will include accessing and/or collecting samples from the previously mentioned property. We anticipate the sampling to take place next Tuesday (12/12) through Thursday (12/14).

Please feel free to contact me if you have any questions about the sampling effort.

Thanks,
Rob

Rob Parker, P.E.
